### PROFESSIONAL RESOURCE HUB

Stop wasting your time researching resources and stop by the BCAPOP Professional Resource Hub! We regularly update this one-stop-shop that is filled with Indigenous resources, evidence based resources, social wellness and more.

### PERINATAL SUBSTANCE USE TRAINING

Hi, **Victoria** and **Richmond!** BCAPOP is coming to you with our popular Perinatal Substance Use Training in Sept and Oct 2022!

Join our Executive Director, Heather Cameron, for an in-person two-day workshop on how to support pregnant, postpartum and newly parenting people who use substances.

"I am so happy I did (take the workshop). A big part of my job over the years is dealing with parents struggling with substance use during pregnancy and early parenthood and breastfeeding. I loved the way you shared your personal stories intertwined in this training, it was done in such beautiful, helpful way. I feel like there is always a dance between oversharing and sharing in a good way, when sharing our own personal experiences. The way you shared was very beneficial and beautiful and I believe a true gift to those taking the course."

- **Jordan Davis, Director of Health & Wellness, Williams Lake First Nation**

# New Research Study Alert

The Centre of Excellence for Women's Health is conducting a new study to learn more about women's perspectives, opinions, and experiences with chronic pain and prescribed opioids. The centre is inviting women who have experience(d) chronic pain and have been prescribed opioids for pain management to a 1-hour virtual or phone interview.

**Women's Chronic Pain and Prescribed Opioids**

Are you a woman experiencing chronic pain? Have you ever used prescribed opioids for pain?

**WE WANT TO HEAR FROM YOU**

 **cewh** This study has been approved by the UBC Research and Ethics Board (#H22-00942).

The Pregnancy **HUB**

## Did you know our Pregnancy HUB Program has a new home?
